WHOLESALE TRADE LIST

NOTE: The object of this list is to put before you a complete listing of our home grown Evergreens, grown in the best soil in Nebraska for root development. We have also included (for your convenience) an assortment of other stock that is well adapted and planted extensively in this territory. We can quote on a general line of Nursery Stock. Please send us your list for quotations.

# Terms and Conditions of Sale

**TERMS**—2% Discount if paid by the first of the second month following date of invoice, and is due Net thereafter. Additional 1% Discount if paid within 10 days from date of invoice.

These terms are offered to those with established credit; otherwise cash, security, or satisfactory references. C. O. D. orders must be accompanied by one-fourth cash.

**PRICES** named in this list are based upon present market conditions and are subject to change without notice. These are Wholesale Prices and apply upon the following quantities:

## FRUIT TREES, SHADE TREES, SHRUBS, ROSES, VINES, PERENNIALS (INCLUDING PEONIES AND LILIES):

300 or more at 1,000 rate (where published)

30 to 300 at 100 rate

Under 30 at 10 rate

All grades and varieties in any one class allowed to make total. For example: All Fruit Trees are considered one class, all shrubs one class, etc.

**Note:**—Classifications as given above are understood to be as listed under general headings in price list. (Broken lots of less than 10 of any one variety and grade will be billed at 15% above 10 rate.)

## SMALL FRUITS, HEDGING, PRIVET, AND ALL SEEDLINGS:

300 of same variety and grade at 1,000 rates

100 to 300 of same variety and grade at 100 rates

## EVERGREENS, B & B:

30 trees (any assortment) at 100 rate

5 trees (any assortment) at 10 rate

## ALL PRICES ARE NET, BOXING AND BALING EXTRA; NO CHARGE FOR PACKING BULK CARS AND TRUCKS.

**SHIPPING**—Please give shipping instructions whether by freight or express and route. If no instructions are given we will forward to the best of our judgment, without assuming responsibility. All goods travel at the purchasers risk and expense.

**TRUCK SERVICE**—We are able to offer truck service within a radius of 300 to 500 miles from Fremont. Charges average about the same as railroad rates with delivery at your door. If interested write for further information.

**CAUTION**—We accept all orders subject to crop conditions and on condition that same shall be void should injury befall our stock from hail, fire, frost, error in count or other causes beyond our control.

**GUARANTEE OF GENUINENESS**—If any nursery stock proves untrue to description or variety name under which it is sold, we hold ourselves in readiness, on proper proof, to replace such nursery stock that may prove untrue to description or name, or refund the original amount paid. We shall in no case be liable for any sum greater than the amount originally received for said nursery stock.

**CLAIMS** for any cause must be made promptly on receipt of stock. We will not entertain claims after goods have been once accepted, or when report is not made within Ten Days after arrival of stock. We express or imply no warranty as to productiveness or life of the nursery stock we sell and will not be in any way responsible for the results secured in transplanting.

**SPECIAL NOTICE**—Correspondents are requested to use their printed business letterheads. We do not quote prices to retail buyers. We use every effort to limit the distribution of trade prices to those whom we know to be entitled to receive them.

YOUR LIST OF WANTS MAY JUSTIFY A LOWER QUOTATION.  
WRITE OR PHONE US TODAY.

**PLUMFIELD NURSERIES**

L. A. MOFFET, Manager

FREMONT, NEBRASKA

**EVERGREENS**

**Prices are for Evergreens Securely Balled and Burlapped.**

Can dig Evergreens, roots puddled at the following reduction in price:

12 to 18 inches at 12c. 18 to 24 inches at 15c. 2 to 3 feet at 20c.

**Our Evergreens have all been three times x x x transplanted, having been grown with plenty of room for development. Have been properly sheared and pruned for producing compact, symmetrical specimens.**

Evergreens selected and tagged by customers in the nursery field will be subject to a 10% additional charge.

Height specified after variety indicates height tree should obtain at maturity.

We cannot assume responsibility for the successful transplanting of Evergreens, as weather conditions, method of handling and care govern results secured and are sold with the distinct understanding that if they arrive in good condition and are accepted, our responsibility ceases.

**FIR, Abies****CONCOLOR, White Fir. 50-60 ft.**

Per 10      Per 100

This is, by far, the most outstanding Fir. It withstands severe winter conditions, and survives summer heat better than other Firs. The color runs from pale green to light blue. The leaves are long, soft, and pungent. It develops into a narrow pyramid of shapely, symmetrical form. When small, it has a tendency to grow rather irregularly, but assumes a symmetrical even growth as it grows older. The trees offered are the type from the Rocky Mountains of Colorado. This tree has been and will continue to be a great favorite for specimen planting.

**PSEUDOTSUGA DOUGLASI, Douglas Fir. 70-80 ft.**

The Douglas Firs are well known, however, the type listed here differs from the Western type as well as the Northern and Southern types. This one is native of Colorado, stands considerable drouth. Foliage is bluish-green, grows 1 to 2 ft. per year, is symmetrical and fairly compact. Makes a nice yard tree, also used extensively for windbreaks.

**JUNIPER, Juniperus****CHINENSIS, Chinese**

A native Juniper of Asia where it covers large areas. The needles are sharp and prickly, light green with a slightly bluish cast. It averages 15-20 feet, and varies in habits from narrow and columnar to broad and cone-like specimens. This is the mother plant from which many horticultural varieties have developed.

**NEW HORIZONTAL EVERGREENS**

The following junipers are natives of the Rocky Mountain region. These varieties were selected for their beauty, compactness and hardiness and have proven a great asset to us who find many needs for low growing ground covers.

**ADMIRABILIS (Admirable)**

Habit of growth is horizontal but it is so compact that it makes a solid mat of evergreen, covering the ground completely. Foliage bluish green. Grows 6 to 8 inches high. Spreads rapidly, yet retains its compactness. A very fine plant to use for covering graves, terraces or any place where a low beautiful covering is wanted.

## EVERGREENS—Continued

**JUNIPER, Juniperus****ADPRESSUS**

This juniper differs some from the others, although it is of the same species. Its foliage is more green with very prominent whitish-green pointed tips. Entire plant grows so tight to the ground that it resembles being pressed against the earth. Grows 4 to 6 inches high. Spreads rapidly making a fine covering.

Per 10 Per 100

12 to 15 inches.....	8.50	.....
15 to 18 inches.....	11.50	.....

**FILICINUS MINIMUS (Fern-like)**

This pretty little juniper is also a variety of the Rocky Mountains. It is one of the finest foliated evergreens of the juniper family. Its short horizontal limbs covered with delicate small branchlets forming fern shaped branches makes it a gem for the rock garden or any other place that a slow growing prostrate evergreen is desired. Grows 4 to 6 inches high, spreads slowly and is very compact. Green foliage.

12 to 15 inches.....	8.50	.....
15 to 18 inches.....	11.50	.....
18 to 24 inches.....	13.50	.....

**LIVIDUS (Bluish)**

Foliage silver-blue on slender branches, making a solid fast growing cover. Grows 4 to 6 inches high. One of our best ground covers.

12 to 15 inches.....	8.50	.....
15 to 18 inches.....	11.50	.....
18 to 24 inches.....	13.50	.....

**PLANIFOLIUS (Flat branched)**

A rapid grower, with long, palmy, silver-blue branches. Grows 8 to 10 inches high. Solid cover. Should be used where quick cover is desired.

18 to 24 inches.....	13.50	.....
2 to 2½ feet.....	17.50	.....
2½ to 3 feet.....	20.00	.....
3 to 3½ feet.....	25.00	.....

**PULCHELLUS, Pumilus (Beautiful Dwarf)**

A beautiful dwarf plant. Foliage is a mixture of blue and green. The short, sharp leaves make up the little branchlets that develop into fern-shaped branches and very attractive. Grows not over 4 to 6 inches high. Spreads quite slowly and very dense.

12 to 15 inches.....	8.50	.....
15 to 18 inches.....	11.50	.....
18 to 24 inches.....	13.50	.....

**SABINA HORIZONTALIS (Creeping)**

Originally from coast of Maine. Makes a strong, thrifty growth with long, graceful branchlets. Foliage bluish-green, not as dense as some of the Rocky Mt. varieties.

**Savin's**

15 to 18 inches.....	10.00	.....
18 to 24 inches.....	14.00	125.00
2 to 2½ feet.....	16.50	.....
2½ to 3 feet.....	20.00	185.00
3 to 3½ feet.....	25.00	.....

**WAUKEGAN, Douglasi (Prostrate)**

Steely-blue foliage. Splendid ground cover. Also effective among rocks. Distinct purple hue in winter.

15 to 18 inches.....	11.50	.....
18 to 24 inches.....	13.50	.....
2 to 2½ feet.....	17.50	.....

**SABINA, Savin Juniper, 5-6 ft.**

Spreading form with slender branches and dark green, short, tufted foliage. Excellent for foundation work and underplanting. Very hardy and planted over a wide area.

15 to 18 inches.....	12.50	115.00
18 to 24 inches.....	16.50	150.00

3½ to 4 feet.....	37.50	.....
4 to 4½ feet.....	45.00	.....

## EVERGREENS—Continued

**JUNIPER, Juniperus****SABINA TAMARISCIFOLIA, Tamarix Savin Juniper, 3-4 ft.**

A beautiful dwarf, handsome light green lacy foliage resembling the delicacy of the Tamarisk shrub, thickly fills the low, creeping plant, forming a dense mat of misty green. You will find it very charming as an edger or in the rock garden.	12 to 15 inches.....	15.00	.....
	15 to 18 inches.....	17.50	.....
	18 to 24 inches.....	22.00	.....

**SABINA VON EHRON, Savin Von Ehron. 8-10 ft. spread**

Belongs to the Savin family. An extremely rapid grower clothed with dark green foliage. Many nurserymen consider it better than Savin.	12 to 15 inches.....	11.50	100.00
	15 to 18 inches.....	12.50	115.00
	18 to 24 inches.....	16.50	150.00
	2 to 2½ feet.....	20.00	185.00

**JUNIPER SCOPULORUM (Western Silver Cedar)**

Extends over a wide range from the Dakotas and Montana down through the Rocky Mts. into New Mexico. Color range from green to extremely silvery blue. Its habits range from low, horizontal types to narrow columnar types. Very hardy drouth resisting and adapts itself over a wide range of territory.

**SCOPULORUM, Colorado Silver Juniper. 25-30 ft.**

Silvery foliage and close symmetrical upright growth. Thrives in hot, dry weather, when the color is the brightest. Grown from seed.	18 to 24 inches.....	15.50	140.00
	2 to 2½ feet.....	19.00	165.00
	2½ to 3 feet.....	22.00	200.00
	3 to 3½ feet.....	25.00	225.00
	3½ to 4 feet.....	30.00	275.00
	4 to 4½ feet.....	36.00	325.00
	4½ to 5 feet.....	40.00	375.00
	5 to 5½ feet.....	45.00	425.00

**SCOPULORUM MONTANA, 20-30 ft.**

Flathead region type. Dull, pointed leaves, whipcord like foliage, silver blue to green. Grown from seed.

10c higher per tree than Colorado Scopulorum.

In order to get uniform habit of growth and color of foliage, we have selected some outstanding types of various forms and have reproduced by grafting. See horticultural varieties for further descriptions.

**SCOPULORUM BLUE COLORADO (Grafted) 20-30 ft.**

Bluish-silver foliage, limbs horizontal. Shears well and makes a beautiful compact, pyramidal tree.	2½ to 3 feet.....	27.50	.....
	3 to 3½ feet.....	32.50	.....
	4½ to 5 feet.....	50.00	.....
	5 to 5½ feet.....	55.00	.....
	5½ to 6 feet.....	60.00	.....

**SCOPULORUM DECUMBENS ARGENTATUS (Grafted) 20-30 ft.**

The remarkable characteristics of this tree will not display their beauty until it has attained a growth of six feet or more, displaying more beauty each year. It has shining silver-green foliage. Each year the new branches, while soft, grow downward and as the season goes on the branches stiffen and turn directly upward. As the tree develops it becomes a mass of well clothed horizontal branches with their tips perpendicular with the leader.	2½ to 3 feet.....	27.50	.....
	3 to 3½ feet.....	32.50	.....

	6 to 7 feet.....	65.00	.....

**JUNIPER, Juniperus****EVERGREENS—Continued****SCOPULORUM FULGENS (Grafted) 20-30 ft.**

Per 10 Per 100

This tree is a native of Colorado. Its habit is upright, pyramidal, full at base and grows compact. Bicolor foliage, glistening, bluish-green, becoming more silver at the tips. The branchlets grow more or less opposite forming flat, Arbor Vitae-like branches. Grows one foot per year.

3 to 3½ feet.....	32.50	.....
4½ to 5 feet.....	50.00	.....
5 to 5½ feet.....	55.00	.....
5½ to 6 feet.....	60.00	.....
6 to 7 feet.....	65.00	.....

**SCOPULORUM FUNALIS (Grafted) 20-30 ft.**

Bluish-green, whip-cord foliage, retaining nearly the same color throughout the year. Pyramidal habit of growth, extremely hardy. Slightly silver-tinged in winter. Straight stem with branches growing nearly horizontal. Will attain more compactness if sheared. Grows one foot per year.

3 to 3½ feet.....	32.50	.....
3½ to 4 feet.....	37.50	.....
4½ to 5 feet.....	50.00	.....
5 to 5½ feet.....	55.00	.....
5½ to 6 feet.....	60.00	.....
6 to 7 feet.....	65.00	.....

**SCOPULORUM MOFFETI (Grafted) 20-30 ft.**

A very attractive tree. Has a mixed green and silver foliage, more silver on tips of branches. Pyramidal habit. Heavy base. Makes an ideal tree whether sheared or not.

2½ to 3 feet.....	27.50	.....
3 to 3½ feet.....	32.50	.....
5½ to 6 feet.....	60.00	.....
6 to 7 feet.....	65.00	.....

**SCOPULORUM PATHFINDER (Grafted) 20-30 ft.**

This tree found favor almost instantly by reason of its outstanding silver foliage. It is upright in habit, full at base, limbs curved upward covered with shining silver-blue foliage making it an outstanding tree of the times. Will grow about one foot a year. Can be sheared, if necessary.

2 to 2½ feet.....	25.00	.....
2½ to 3 feet.....	27.50	.....
3 to 3½ feet.....	32.50	.....
5½ to 6 feet.....	62.50	.....

**SCOPULORUM SILVER BEAUTY (Grafted) 20-30 ft.**

A native of the San Isabel Forest region, and truly a beautiful tree. It is upright, full at base, branches have upward trend, foliage is greenish-silver, more silver on the exposed tips of branches. Grows about one foot a year. Can be sheared.

2 to 2½ feet.....	25.00	.....
2½ to 3 feet.....	27.50	.....

5½ to 6 feet.....	57.50	.....
6 to 7 feet.....	62.50	.....

**SCOPULORUM WELCHI (Grafted)**

The Welchii is the most satisfactory columnar type Scopulorum on the market today. Foliage is a light, evenly mixed greenish-silver. Leaves sharp but lay very close to the stem. Branches are very full and tufted at the base, tapering out to a prominent point, yet they are sharply curved upward forming a fine, outstanding columnar tree. Grows about one foot a year. Retains its shape without shearing.

	3½ to 4 feet.....	42.50	.....
	4 to 4½ feet.....	47.50	.....

**PUNGENS GLAUCA GREEN (Mostly Green) 60-80 ft.**

These have very little blue color.	18 to 24 inches.....	14.00	125.00
	2 to 2½ feet.....	18.00	165.00
	2½ to 3 feet.....	22.50	200.00
	3 to 3½ feet.....	26.00	.....

**PINE, Pinus****FLEXILIS, Limber Pine, 50-60 ft.**

Resembles the White Pine somewhat. Has more flexible limbs but soft needles or leaves of dark green or bluish cast. Very good ornamental Pine.	18 to 24 inches.....	15.00	.....
	2 to 2½ feet.....	20.00	.....
	2½ to 3 feet.....	25.00	.....

**MUGHUS, Mugho Pine, 3-4 ft.**

Dwarf pine of many branches. Used in rockeries and in foundation plantings. New growth, in spring, resembles candles.	12 to 15 inches.....	15.00	.....
	15 to 18 inches.....	20.00	.....
	18 to 24 inches.....	27.50	.....
	2 to 2½ feet.....	32.50	.....

**ARISTATA, Foxtail Pine, 20-25 ft.**

Small bushy tree. Leaves slender, dark green, often sprinkled with resinous dots.	10 to 12 inches.....	7.50	.....
	12 to 15 inches.....	10.00	.....
	15 to 18 inches.....	12.50	.....

**NIGRA, Austrian Pine, 60-70 ft.**

Deep rich green color. Growth close and compact. Coal gas and smoky atmosphere have very little effect on its growth. Valuable for wind-breaks. Very hardy.	18 to 24 inches.....	11.00	100.00
	2 to 2½ feet.....	14.50	130.00
	2½ to 3 feet.....	16.50	160.00

## EVERGREENS FOR LINING OUT

The make up and handling of this line of stock means success or failure to the planter. Our trees are grown in a rich, sandy loam which is responsible for the wonderful root system they acquire. With our rapid method of digging, handling and shipping the customer is assured of good results as far as the stock is concerned.

NOTE: Root Pruned grades are available for SPRING SHIPMENT ONLY except, GRAFTING STOCK, which can be shipped any time after OCTOBER 1st, weather being favorable for digging. We recommend that understocks to be potted and put into greenhouse for winter grafting be ordered for October shipment and left to our judgment as to the exact shipping date and we will notify you a few days before shipment is made.

NOTE: We will not be responsible for stock after delivery to carrier.

We are sure customers would almost eliminate any chance of losses if they would prepare to plant our stock when it is ready to move instead of having it moved when they are ready to plant. Experience is valuable if put to use.

KEY: T—Transplanted one or more times.

RP—All tap roots severed by special root pruning device.

We assure you that our T. and RP. stock will have no tap roots or heavy side roots.

RATES—50 of any variety and size at 100 rate.

300 of any variety and size at 1000 rate.

Mixed orders of one thousand or more and not less than twenty-five of a variety and size at thousand rate.

## JUNIPER GRAFTS FOR LINING OUT

Our Juniper Grafts are worked on heavy J. Virginiana under-stocks in 2½ inch pots, (Scopulorum under-stocks used on request at a slightly higher rate) delivery about May first.

Ask for prices on varieties wanted.

## FRUIT TREES

**HEIGHT AND CALIPER**—Height given of fruit trees is approximate and represents average height of most varieties. Some slow growing kinds may fall short of height specified as it is intended that THE CALIPER SHALL GOVERN.

All Fruit Trees are tied 11-16 and 9-16, 10; 7-16 and 5-16, 20 per bundle.

## APPLES

Our Apple trees are excellent stock, have been well grown, are well graded and we are confident will please critical trade. Note the complete assortment we are offering with improved strains in many varieties.

## DECIDUOUS TREES

Our Shade and Ornamental Trees are first class, well shaped, young and vigorous nursery grown trees with good roots. They have been grown from seedlings transplanted in nursery row especially for this purpose.

All calipers taken 6 inches above the collar.

**BALLING AND BURLAPPING EXTRA.** The following prices are made to cover ordinary size balls, a ball large enough to safely transplant the tree.

	Each		Each
3 to 4 feet.....	\$.40	1½-inch caliper.....	\$2.00
4 to 5 feet.....	.60	1½-inch caliper.....	2.75
5 to 6 feet.....	.75	2 -inch caliper.....	3.25
6 to 8 feet.....	1.00	2½-inch caliper.....	4.00
8 to 10 feet.....	1.50	3 -inch caliper.....	5.00

Balling and burlapping on larger sized trees quoted on request.

**ASH, Green, lanceolata, 50-60 ft.**

Thrives over a wide territory. Especially valuable for planting in high altitudes and dry cold climates. Succeeds everywhere. Valuable on the farm.

	Per 10	Per 100
4 to 5 feet.....	2.40	20.00

3 to 4 feet.....	4.00	35.00
4 to 5 feet.....	5.50	50.00

**CRAZ, Bechtel, 12-15 ft.**

A beautiful, double pink, flowering crab with fragrant flowers. May-June. Does well where not affected with Cedar Fungus.

**CRAZ, Flowering Malus. 15-30 ft.**

The following varieties of flowering crabs are valuable, producing attractive flowers and fruit. Where Cedar trees are plentiful we recommend planting these in preference to Bechtel's.

2 to 3 feet.....	3.50	30.00
3 to 4 feet.....	4.50	40.00
4 to 5 feet.....	6.00	55.00
5 to 6 feet.....	7.50	.....

**Eleyi (purpurea eleyi) 20-25 ft.**

Attractive reddish foliage in spring. Dark pink single flowers and showy fruit.

**Floribunda Purpurea, Purple Crab. 25-30 ft.**

Attractive red foliage in spring; single crimson flowers.

## DECIDUOUS TREES—Continued

CRABS—see prices page 16.

**Hopa, Red Flowering Crab.** 20-25 ft.

A beautiful, upright growing tree with attractive foliage. Entirely covered with rose colored flowers in April. Fruit red inside and out, hanging on until late autumn. Very hardy and free from disease. Planted extensively.

**Red Silver.** 18-20 ft.

Fruit rich maroon red, foliage somewhat cut-leaved with silver and red color. A remarkable combination.

**Redvein Crab.** *Niedzwetzkyana.* 20-25 ft.

A large growing Russian Turkestan variety. Has remarkable large red flowers in April followed by large purplish red fruit and leaves.

**Pink Giant, Baccata Flowering Crab.**

Flowers large, pink, over 2 in. across. Trees in bloom are really beautiful. Largest bloom of all single flowering crabs.

**ELM—American White,** *Ulmus americana.* 60-100 ft.

The most popular American tree for street and general planting.
